-  Track Every Item in Real-Time
-  Streamline Multi-Warehouse & Location-Based Inventory Control
-  Reduce Stock Costs with Smart, Predictive Reordering
-  Integrated with Finance, Procurement & Manufacturing

 **(629) 228-6689**

# Key Features of WrkPlan Inventory & Warehouse Management

## Real-Time Inventory Tracking

IoT and RFID-enabled live tracking keeps you informed of every stock movement — across SKUs, batches, and locations.

## Multi-Warehouse Management

Manage multiple warehouses effortlessly with centralized control of stock transfers, reorder points, and inter-branch logistics.

## AI-Powered Barcode & QR Scanning

Accelerate inbound and outbound operations with smart scanning tools that minimize errors and boost efficiency.

## Smart Replenishment & Forecasting

AI-based reorder points and demand forecasting ensure you never overstock or run out. Replenishment is automated and intelligent.

## Benefits & Business Insights

- 100% Inventory Accuracy
- Reduced Inventory Holding Costs
- AI-Driven Reordering & Forecasting
- GST-Compliant & Audit-Ready Reports
- Mobile-Friendly Cloud Access
- Integrated Quality & Procurement Workflows

# Meet WrkPlan Inventory

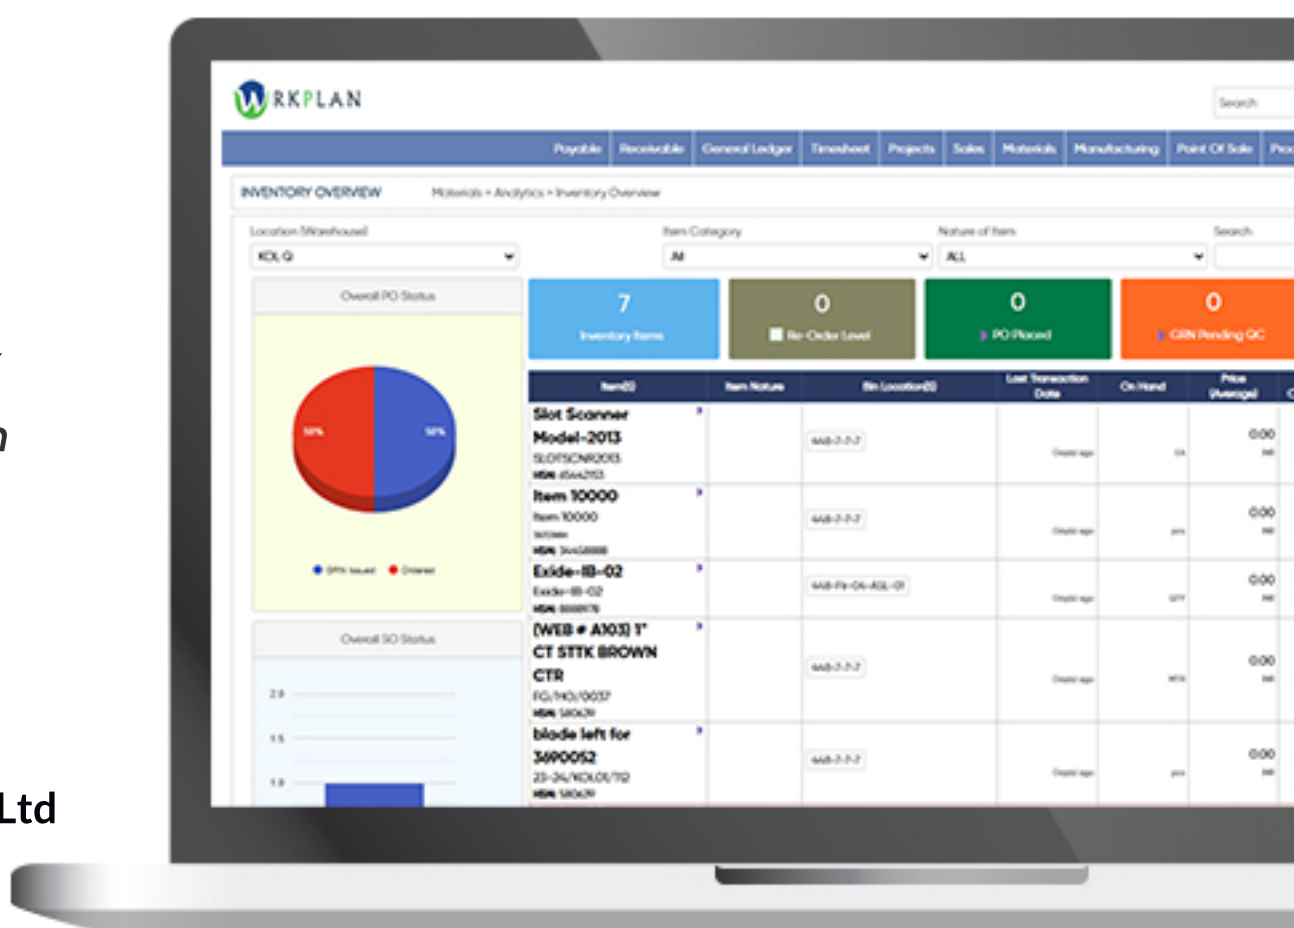

WrkPlan's Inventory & Warehouse solution offers real-time control, accuracy, and agility — fully integrated with finance, manufacturing, and procurement for complete stock management from entry to dispatch.

**One Platform. Real-Time Stock Control. End-to-End ERP Integration.**

*From our client...*

*"I have been using the software for quite sometime now.. It fits my business model and I am happy with their support team."*
