

WRKPLAN

AI-enabled Manufacturing

BUILT-IN FEATURES THAT DRIVES PERFORMANCE

PROCUREMENT

Streamline sourcing, manage suppliers and automate Procure to Pay cycle with proper compliance.

INVENTORY WITH ADVANCED WMS

Control inventory flows, enhance warehouse execution and enable end to end supply chain efficiency.

ORDER MANAGEMENT

Automate Sales Order, optimize fulfilment and improve cash flow management.

MRP WITH PRODUCTION PLANING

Enable precise, demand driven planning to ensure material availability for uninterrupted production and procurement.

TRACEABILITY & BATCH TRACKING

Complete visibility across the supply chain with end-to-end batch tracking, enabling quick identification, quality control, and compliance.

SMART COST CONTROL

Monitor and optimize manufacturing costs with real-time insights into materials, labor, and overheads—driving efficiency and profitability.

KEY HEIGHLIGHTS

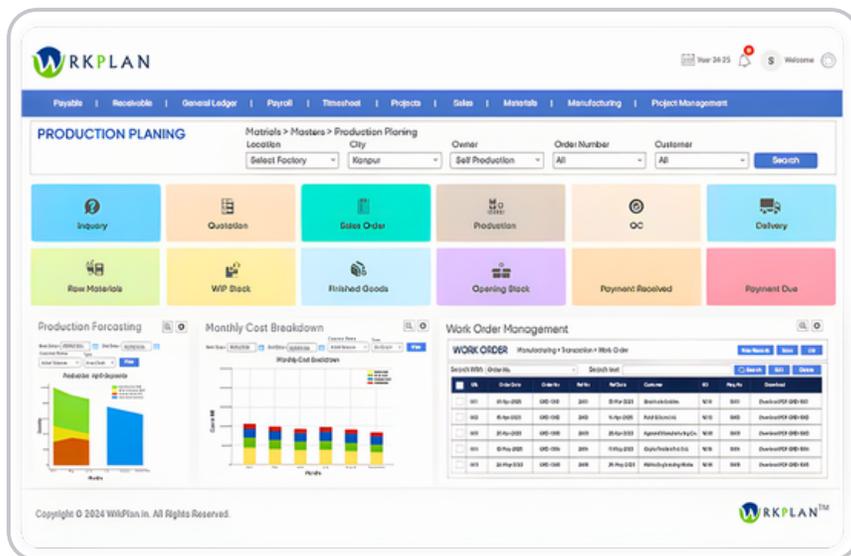

- ✓ **AI-Driven Decision Intelligence**
Predictive analytics and automation that improve planning accuracy and operational efficiency.
- ✓ **End-to-End Process Integration**
Unifies finance, production, inventory, procurement, and analytics into one seamless platform.
- ✓ **Real-Time Operational Visibility**
Live dashboards and actionable insights to monitor performance and respond instantly.
- ✓ **Faster ROI**
Reduces manual effort, minimizes downtime, and improves resource utilization — delivering measurable results quickly
- ✓ **Dedicated Support & Implementation Guidance**
Structured onboarding, training, and ongoing assistance to ensure smooth adoption.

AI-ENABLED ERP DRIVING PRECISION AGILITY & SCALABLE GROWTH

EMPOWERING OPERATIONAL EXCELLENCE THROUGH AI

WrkPlan offers an AI-enabled ERP platform built for modern manufacturers, unifying finance, production, supply chain, and analytics into one intelligent system.

With real-time visibility, automation, and embedded insights, it helps businesses improve efficiency, strengthen margins, and scale with confidence while maintaining long-term competitive advantage.

ABOUT US

WrkPlan is an ERP solutions provider focused on manufacturing and supply chain transformation.

Combining industry expertise with AI-enabled technology, we help organizations streamline operations, optimize inventory, strengthen process control, and achieve scalable growth through improved efficiency and end-to-end visibility.

MORE BENEFITS WITH WRKPLAN

Dedicated Support with quick response

Structured onboarding, training, and ongoing assistance to ensure smooth adoption.

Reduced Operational Costs

Automation and optimized workflows lower manual effort, waste, and overhead expenses.

Improved Decision Accuracy

AI-powered forecasting and real-time insights reduce guesswork and planning errors.
